Notes

Dear traveler,

I put this guide together to help make your trip to Orlando as fun, stress-free, and memorable as possible. Whether you're here for theme parks, nature spots, or just some sunshine, this planner will keep everything organized in one place.

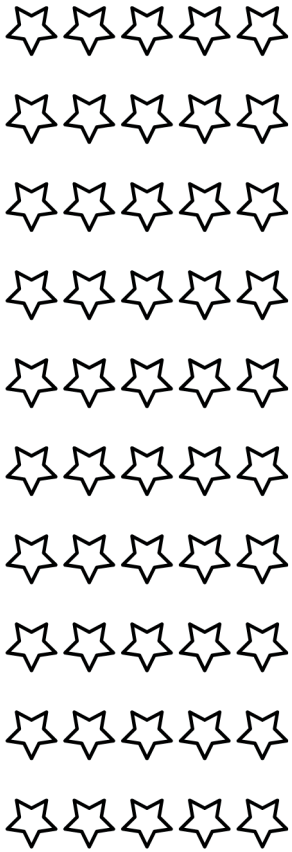

Inside, you'll find ideas for where to go, things to do, and handy tips to make the most out of your time. I also added space for notes and planning, so you can make it truly your own.

Orlando has a little bit of everything: world-famous attractions, beautiful springs, and laid-back neighborhoods you can wander at your own pace. My hope is that this guide gives you a balance of both adventure and relaxation.

Take it with you, scribble in it, and make it part of your trip. Most importantly, enjoy yourself. You're about to make some great memories here in Orlando!

Safe travels and happy exploring,

Angelica
